

Azolla pinnata Ferny Azolla

zolla

Murraylands Floating on the pond this water plant provides great habitat for tadpoles.

	Milkmaids		Bulb plant with white flower head. Late spring. Very slow growing to begin with. To 50cm
Bursaria spinosa	Bursaria		Medium to large upright shrub. White flowers in Dec attract insects and birds. Suitable Hills and Plains.
Caesia calliantha	Blue Grass-lily		Ground dwelling bulb with strappy leaves and blue flowers. 40cm.
Callistemon rugulosus	Scarlet Bottlebrush		Rounded shrub to 2m with very attractive red bottlebrush flowers. Attracts large birds. Many soil types inc sand.
Callistemon sieberi	River Bottlebrush		Slender shrub to 1.5m with yellowish bottlebrush flowers. Will tolerate flooding in creeklines. Hills.
Callistemon teretifolius	Needle Bottlebrush		Broad shrub to 1.5m with attractive red bottlebrush flowers. Great for birds. Prefers Hills soil. Hardy.
Callitris gracilis	Southern Cypress Pine		This native pine is a largish tree 15m and not suitable for small gardens. Very hardy. Hills and Plains.
Callitris rhomboidea	Oyster Bay Pine		This pine has an attractive silver colour and interesting seed cones. About 8m.
Calocephalus citreus	Lemon Beauty-heads		Small groundstorey plant with yellow flower heads in summer. Dies back and reshoots in winter. Plains & Hills
Calostemma purpureum	Garland Lily		Bulb lily with very attractive pink flowers in autumn. Leaves appear later in season. 40cm. Hills and Plains.
Calytrix tetragona	Common Fringe-myrtle		Shrub 1.5m. Great bird and insect plant. Covered in lovely pink flowers in spring followed by red seeds. Hills
Carex bichenoviana	Notched Sedge		Small sedge 25-50cm tall. Damp depressions, Seasonal creeks. Plains and Hills
Carex breviculmis	Sedge		Small sedge that grows away from water in damper shady areas. To 30cm.
Carex fascicularis	Tassel Sedge		Water loving rush like plant with broad leaves. Green dangling heads. Spring to autumn. Hills and Plains
Carex inversa	Knob Sedge		Leafy tall sedge growing in damp or semi dry grassy areas. Does not require flooding.
Carex tereticaulis	Rush Sedge		Sedge to 1m best in periodically inundated areas.
Carpobrotus modestus	Inland Noon-flower		Groundcover pigface. Pink flowers. Very hardy. Most soil types but loves sand.
arpobrotus rossii	Karkalla	coastal	Groundcover pigface. Large pink flowers. Very hardy. Most soil types. Naturally coastal. Birds and insect attracting.
Cassinia arcuata	Drooping Cassinia		Large shrub to 2.5m. Golden bronze flowers-heads. Birds and Insects. Loves sand but will grow elsewhere.
centella asiatica	Asian Centella		Small creeping ground plant living in damp and boggy areas or shallow water.
	Blue Squill		Small ground dwelling plant with very bright blue flowers in spring. 15cm. Best grown in groups. Hills.
heilanthes austrotenuifolia	· ·		Extremely hardy fern will die back in summer and resprout and sucker with rains. Can be kept green. 20cm.
Cheiranthera alternifolia	Hand-flower		Very attractive plant with brilliant blue flowers with yellow finger-like centres. Spindly to about 1m.
Chloris truncata	Windmill Grass		Extremely hardy summer growing grass to 30cm. Windmill seed head. Fantastic for seed eating birds like finches.
Chrysocephalum apiculatur			Summer flowering daisy to 50cm. Yellow, orange tight heads of flowers attractive from late spring well into summer.
	White Everlasting		Lovely groundstorey white daisy flower to 30cm. Showy for a long time. Suits Hills and Plains
Chrysocephalum semipapp			Yellow daisy to 50cm. Dies back if unwatered in summer but should sprout again in late autumn. Hills and Plains
Cladium procerum	Leafy Twig-rush		Large rush plant with clusters of brown flower heads. Needs permanent water. Good for large pond plant. 1.5m
Clematis microphylla	Old Man's Beard		Beautiful large twining plant. Cream flowers. Females plants with very decorative fluffy seed heads.
convolvulus angustissimus	Bindweed		Hardy twining plant with pink flowers and lobed leaves. Spring and summer. Plains and Foothills. Native bees.
convolvulus remotus	Australian Bindweed		Hardy twining plant with soft pink flowers. Spring and summer. Visited by small native bees. Plains and Hills.
oronidium scorpioides	Button Everlasting		Formerly Helichrysum scorpioides Rossette base with lemon paper daisy flowers above. Hills and foothills.
correa aemula	Hairy Correa		Medium sized shrub to 1.5m with green hanging tube flowers
Correa calycina	Hindmarsh Correa		Cutting grown. This is a threatened Correa from Hindmarsh Falls area. Green flowers.
Correa glabra	Rock Correa		Medium sized shrub with pink and green tube flowers. Can tolerate shade and quite damp areas. 1.5m Hills and Foothil
Correa reflexa	Common Correa		Small hardy attractive shrub with pretty red/green tubular bell flowers to 1m. Hills and Plains.
Correa sp	Correa	*	
Craspedia variabilis	Billy-buttons		Groundstorey to 30cm with showy yellow ball/s made up of hundreds of tiny daisy flowers. Early spring. Nice grouped.
Cullen australasicum	Tall Scurf-pea		Important butterfly plant. Spikes of small pink flowers on open shrub to 1.2m. Hills and Plains
Cymbopogon ambiguus	Lemon grass		Interesting and showy blue-grey grass to about 50cm tall.
Cymbopogon obtectus	Silky-head Lemon-grass		Showy grass with unusual white seed heads pointing in various directions. Will self seed.1m
	Sweet Hound's-tongue		
, <u>,</u>	i v		Small groundstorey plant to about 40cm tall. Tiny white and yellow flowers with an exquisite perfume. Most soils.
Cyperus gunnii	Flecked Flat-sedge		Sedge for areas often wet.
Cyperus gymnocaulos	Spiny Flat-sedge		Rush for edge of dam or creek line. Can remain dry over summer period. Spreads by drooping sprouting seedheads.
Cyperus vaginatus	Flat-sedge		Rush for edge of dam or creek line. Can remain dry over summer period.
ampiera dysantha	Shrubby Dampiera		
aucus glochidiatus	Native Carrot		Annual with pretty small red seed pods. Self seeds. Great for grassland planting. To 30cm. Range of soils.
aviesia brevifolia	Leafless Bitter-pea		Shrub to 1.5m with fantastic dense pinkish/salmon flower display in spring. Lacks true leaves. Hardy. Hills
aviesia leptophylla	Narrow-leaf Bitter-pea		Large shrub with wattle-like leaves. Beautiful bunches of yellow pea-flowers in spring. Hills and Foothills
Daviesia ulicifolia	Gorse Bitter-Pea		Attractive medium shrub with orange/red flowers and prickly foliage. Hardy, Hills & Foothills
)ianella brevicaulis			, , , , , , , , , , , , , , , , , , , ,
)ianella longifolia	Short-stem Flax-lily		Tussock of green foliage to 60cm with blue flowers in the leaf tops. Hardy. Suits Hills and Plains
	Short-stem Flax-lily Pale Flax-lily		
Dianella revoluta			Tussock of green foliage to 60cm with blue flowers in the leaf tops. Hardy. Suits Hills and Plains
	Pale Flax-lily		Tussock of green foliage to 60cm with blue flowers in the leaf tops. Hardy. Suits Hills and Plains Hardy tussock plant 1m, with sprays of light-blue flowers well above the leaves. Purple berries. Hills & Plains
Dichanthium sericeum	Pale Flax-lily Black-anther Flax-lily		Tussock of green foliage to 60cm with blue flowers in the leaf tops. Hardy. Suits Hills and Plains Hardy tussock plant 1m, with sprays of light-blue flowers well above the leaves. Purple berries. Hills & Plains Very hardy tussock plant with mid blue flowers in spring. Hills & Plains
Dichanthium sericeum Dichelachne sp??	Pale Flax-lily Black-anther Flax-lily Silky Blue-grass Plume-grass		Tussock of green foliage to 60cm with blue flowers in the leaf tops. Hardy. Suits Hills and Plains Hardy tussock plant 1m, with sprays of light-blue flowers well above the leaves. Purple berries. Hills & Plains Very hardy tussock plant with mid blue flowers in spring. Hills & Plains Grass with pale bluish leaves. Seed heads great for birds. 30-70cm. Plains and limestone.
vichanthium sericeum Vichelachne sp?? Vichondra repens	Pale Flax-lily Black-anther Flax-lily Silky Blue-grass Plume-grass Tom Thumb		Tussock of green foliage to 60cm with blue flowers in the leaf tops. Hardy. Suits Hills and Plains Hardy tussock plant 1m, with sprays of light-blue flowers well above the leaves. Purple berries. Hills & Plains Very hardy tussock plant with mid blue flowers in spring. Hills & Plains Grass with pale bluish leaves. Seed heads great for birds. 30-70cm. Plains and limestone. Dense ground covering plants prefering shade and watered areas. Good for "lawn" in shady areas.
vichanthium sericeum vichelachne sp?? vichondra repens villwynia hispida	Pale Flax-lily Black-anther Flax-lily Silky Blue-grass Plume-grass Tom Thumb Red Parrot-pea		Tussock of green foliage to 60cm with blue flowers in the leaf tops. Hardy. Suits Hills and Plains Hardy tussock plant 1m, with sprays of light-blue flowers well above the leaves. Purple berries. Hills & Plains Very hardy tussock plant with mid blue flowers in spring. Hills & Plains Grass with pale bluish leaves. Seed heads great for birds. 30-70cm. Plains and limestone. Dense ground covering plants prefering shade and watered areas. Good for "lawn" in shady areas. Small shrub with orangish pea flowers on stems. Very hardy. Many soil types. Hills and Plains
vichanthium sericeum vichelachne sp?? vichondra repens villwynia hispida visphyma crassifolium	Pale Flax-lily Black-anther Flax-lily Silky Blue-grass Plume-grass Tom Thumb Red Parrot-pea Round-leaved Pigface		Tussock of green foliage to 60cm with blue flowers in the leaf tops. Hardy. Suits Hills and Plains Hardy tussock plant 1m, with sprays of light-blue flowers well above the leaves. Purple berries. Hills & Plains Very hardy tussock plant with mid blue flowers in spring. Hills & Plains Grass with pale bluish leaves. Seed heads great for birds. 30-70cm. Plains and limestone. Dense ground covering plants prefering shade and watered areas. Good for "lawn" in shady areas. Small shrub with orangish pea flowers on stems. Very hardy. Many soil types. Hills and Plains Small succulent plant with pink pig-face type flowers. Coastal and Plains
Vichanthium sericeum Vichelachne sp?? Vichondra repens Villwynia hispida Visphyma crassifolium Vodonaea viscosa	Pale Flax-lily Black-anther Flax-lily Silky Blue-grass Plume-grass Tom Thumb Red Parrot-pea Round-leaved Pigface Sticky Hop-bush		Tussock of green foliage to 60cm with blue flowers in the leaf tops. Hardy. Suits Hills and Plains Hardy tussock plant 1m, with sprays of light-blue flowers well above the leaves. Purple berries. Hills & Plains Very hardy tussock plant with mid blue flowers in spring. Hills & Plains Grass with pale bluish leaves. Seed heads great for birds. 30-70cm. Plains and limestone. Dense ground covering plants prefering shade and watered areas. Good for "lawn" in shady areas. Small shrub with orangish pea flowers on stems. Very hardy. Many soil types. Hills and Plains Small succulent plant with pink pig-face type flowers. Coastal and Plains Large shrub good for screening. Attractive red or sometimes yellow papery seed pods. Hardy. Hills and Plains.
Vichanthium sericeum Vichelachne sp?? Vichondra repens Villwynia hispida Visphyma crassifolium Vodonaea viscosa Vuma florulenta	Pale Flax-lily Black-anther Flax-lily Silky Blue-grass Plume-grass Tom Thumb Red Parrot-pea Round-leaved Pigface Sticky Hop-bush Tangled Lignum	plains/eastern	Tussock of green foliage to 60cm with blue flowers in the leaf tops. Hardy. Suits Hills and Plains Hardy tussock plant 1m, with sprays of light-blue flowers well above the leaves. Purple berries. Hills & Plains Very hardy tussock plant with mid blue flowers in spring. Hills & Plains Grass with pale bluish leaves. Seed heads great for birds. 30-70cm. Plains and limestone. Dense ground covering plants prefering shade and watered areas. Good for "lawn" in shady areas. Small shrub with orangish pea flowers on stems. Very hardy. Many soil types. Hills and Plains Small succulent plant with pink pig-face type flowers. Coastal and Plains Large shrub good for screening. Attractive red or sometimes yellow papery seed pods. Hardy. Hills and Plains. Tangled mass of stems to 1.5m. Great bird habitat. Alkaline tolerant. Plains
Vichanthium sericeum Vichelachne sp?? Vichondra repens Villwynia hispida Visphyma crassifolium Vodonaea viscosa Vuma florulenta Vinadia nutans	Pale Flax-lily Black-anther Flax-lily Silky Blue-grass Plume-grass Tom Thumb Red Parrot-pea Round-leaved Pigface Sticky Hop-bush Tangled Lignum Climbing Saltbush	plains/eastern	Tussock of green foliage to 60cm with blue flowers in the leaf tops. Seed heads great for birds. 30-70cm. Plains and limestone. Dense ground covering plants prefering shade and watered areas. Good for "lawn" in shady areas. Small shrub with orangish pea flowers on stems. Very hardy. Many soil types. Hills and Plains Small shrub with orangish pea flowers on stems. Very hardy. Many soil types. Hills and Plains Small succulent plant with pink pig-face type flowers. Coastal and Plains Large shrub good for screening. Attractive red or sometimes yellow papery seed pods. Hardy. Hills and Plains. Tangled mass of stems to 1.5m. Great bird habitat. Alkaline tolerant. Plains Dense groundcover but can grow against obstacles. Tiny flowers and berries. Lizards and birds hardy. Hills & Plains Rushlike plant in seasonally damp areas on edge of water. To 90cm. Vertical flower spikes. Tall groundcover to small shrub. Attractive berries are edible Great bird food too. Plains and Hills. Hardy. Grass to about 30cm with small compact seed head. Well above leaves. Will self seed. Most soils. Low grass with curly leaves. Umbrella like seed-head. Hardy Very attractive ground cover. Red to yellow open tubular flowers. Likes Plains soils and tolerates limestone well. Unusual but very striking prickly blue plant to about .5m. Range of soils. Water loving prostrate plant with unusual blue flowers. 30cm wide. Short lived perennial. Upright or spreading tree depending on conditions. Good windbreak. Hills soils. Approx 7-12m.

	1	1	
Eucalyptus gongylocarpa	Marble Gum	arid lands	Single stemmed tree from northern desert areas. Interesting patchy bark
Eucalyptus goniocalyx	Long-leaf Box		Medium sized tree 6-20m. Rough bark. foliage matures from round to a long leaf.
Eucalyptus gracilis	White Mallee	northern plains	Often multi-stemmed small tree. Northern plains or plains east of the Ranges. 3-10m
Eucalyptus incrassata	Ridge-fruited Mallee		Medium spreading mallee tree. 3-5m. Flowers white or pink . Many soil types on Plains.
Eucalyptus leucoxylon	South Australian Blue Gum		Large single trunked tree to 30m. Mostly smooth bark. Hills and Plains
	South Australian Blue Gum		Large single trunked tree to 30m. Mostly smooth bark. Hills and northern Plains.
Eucalyptus obliqua	Messmate Stringybark		Tree to about 25m tall in wettter areas. Usually single trunk. Fibrous bark, glossy leaves. Hills
Eucalyptus odorata	Peppermint Box		Small gum tree with wide canopy. Sometimes multi-trunked. Plains and Hills. Rough fibrous bark. Usually about 8m
Eucalyptus porosa	Mallee Box		Spreading gum tree with rough bark. May have several trunks. Good for plains areas and foothills .Usually about 8m.
Eucalyptus socialis	Beaked Red Mallee	local plains	Broad often multi-stemmed mallee often 5-6m. Large bunched flower heads. Plains.
Euc. viminalis ssp.cygneten	Rough-bark Manna Gum		Multi-trunked or upright tree. Rough at base with smooth upper branches. 6-20m. Koala food.
Eucalyptus wyolensis	Wyola Lake Mallee	arid lands	Grey leaves yellow flowers. Very tough 4-6m Silver buds.
Eucalyptus youngiana	Ooldea Mallee	arid lands	2-8m. Large crown-like fruits. Yellow pale or red flowers. Tough. Rocky slopes.
Eutaxia microphylla	Eggs and bacon		Fine leafed small shrub sometimes almost prostrate. Smalll yellowish, red streaked pea flowers. Hills & Plains.
Ficinia nodosa (Isolepis)	Knobby Club-rush		Very hardy rush-like plant with attractive ball-shaped heads Once established needs little water. Most soils. 60cm
Frankenia pauciflora	Common Sea Heath	coastal	Small hardy ground cover with small but pretty pink flowers. Salt tolerant. Good for rockeries.
Gahnia sieberiana	Red-fruit Cutting-grass		Very large clumping plant with tall black flower-heads . Grasslike foliage. 1.5-2m Suits damp conditions.
Geranium solanderi/retrorsu	Native Geranium		Dense trailng plant with potential to cover large areas. Small pink flowers. Semi shade. Suit Hills and Plains
Glischrocaryon behrii	Golden Pennants		Upright semi-tussock with bright-yellow flowers in spring. To 40cm. Hills and Plains.
Glycine rubiginosa	Twining Glycine		Delicate twining plant with purple pea flowers. Climbs approx 1m. Hills and Plains.
Gompholobium ecostatum	Dwarf Wedge-pea		Small shrub, with small leaves and larger yellow pea-flowers. To .5m Hills
Gonocarpus elatus	Hill Raspwort		Very small shrub to 40cm. Tiny reddish flowers. Mostly dies back for dry summers. Good for revegetation.
Gonocarpus mezianus	Broad-leaf Raspwort		Leafy ground cover with insignificant reddish flowers . Hardy. Good lizard habitat.
Gonocarpus tetragynus	Small-leaf Raspwort		Very small shrub to 30cm. Dies back for summer. No showy flowers but good biodiversity plant.
Goodenia albiflora	White Goodenia		Sprawling low plant with white flowers in early summer. Loved by blue-banded bees. Hills and Plains
Goodenia amplexans	Clasping Goodenia	Hills	Medium shrub to 1m with yellow flowers. Herby smell. Attracts native bees. Suits Hills and Plains.
Goodenia ovata	Hop Goodenia		Medium shrub with yellow flowers to about 1.5m. Quick growing. Suits Hills.
Goodenia pinnatifida	Scrambled Eggs		Small ground dwelling species with yellow flowers. Best in clusters. Hills and plains.
Goodenia varia	Sticky Goodenia	Gawler Ranges	
Gossypium sturtianum	Sturt Desert Rose	arid lands	Shrub 1-2m Beautiful large lilac hibiscus type flowers. Extremely hardy.
Grevillea lavendulacea	Lavander Grevillea		Small shrub to .5m with pink-red spider flowers. Attracts small birds. Hills and Foothills.
Grevillea ilicifolia	Holly-leaved Grevillea		Spreading low shrub or groundcover with red spider flowers. Spring, Hills and Plains
Hakea carinata	Erect Hakea		Medium to large upright shrub with small white flowers. Yellow-tail black cockatoo food. Hills and Foothills.
Hakea rostrata	Beaked Hakea		Medium stiff spreading shrub to 1.5m with white spider flowers and woody pods. Bird food. Hills and Foothills.
Hakea rugosa	Dwarf Hakea		Attractive medium prickly shrub with small white flowers and woody pods. Hills and Foothills. Bird plant.
Hardenbergia violacea	Native Lilac		Very attractive climbing twining plant that will grow up trees, fences etc. Purple clustered flowers. Hills and plains
Hardenbergia violacea	Native Lilac pink form		Pink flowered form of native lilac. Semi-climber. Hills and plains.
	Native Lilac white form		Vigorous climbing plant with bunches of white flowers. Shrub or climbing. Hills and plains.
Hardenbergia violacea Helichrysum leucopsideum			
· · ·	Guinea-flowers		Spreading groundstorey with white paper flowers in early summer. Dies back but will resprout in autumn. Small to medium shrub with showy vellow flowers. Hills
Hibbertia sp Hibbertia crinita			
Hybertia crinita Hybenthus floribundus	Silky Guinea-flower Shrub Violet		Very ettractive amally mad abrub with masses of unusual, blue vielet flowers is anning. Hills and featbills
			Very attractive small - med shrub with masses of unusual blue-violet flowers in spring. Hills and foothills
Hydrocotyle laxiflora	Stinking Pennywort		Small running, sparse ground cover. Distinct odour when flowering. Semi shade. Small ball like flower-heads.
Hymenanthera dentata (Me			Great for blue-wren habitat this dense spiky plant has unusual yellow flowers and dark berries. Hills
Hypericum gramineum	Small St John's Wort		Low growing bright foliage with yellow-orange flowers. Suckers to a clump. Damper areas. 30cm. Hills and foothills
Isolepis inundata	Swamp Club-rush		Swamps and dam backs that are usually wet. Will spread via drooping sprouting seedheads.
Isopogon ceratophyllus	Horny Cone-bush		Very prickly but attractive shrub to about 70cm. Yellow whorled flowers. No high phosphate fertilizer.
Isotoma petraea	Rock Isotome	arid lands	Small ground storey plant with pink flowers. Hardy. To 2 years but will self seed prolifically. Most soils.
Ixodia achillaeoides ssp. ala			Medium shrub with many white papery flowers. Flowers remain attractive once dry. Up to 2m.
Ixodia achillaeoides ssp. Ac		coastal	Dense small shrub with many white papery flowers. Flowers remain attractive once dry.
Juncus holoschoenus	Joint-leaf Rush		Tallish rush with attractive round seed heads. Tallish rush with attractive round seed heads. Creeklines, dam margins.
Juncus kraussii	Sea Rush		Rush tolerates brackish water. Medium height.
Juncus pallidus	Pale Rush		Tall stout relatively hardy rush.
Juncus sarophorus	Rush		Medium sized rush. Swamp and dam margins. Wet paddocks.
Juncus subsecundus	Finger Rush		Hardy rush that can grow in quite dry places. 60-80cm. Creeklines, paddocks etc. Hills and Plains
Juncus usitatus	Common Rush	Murray R.	Probably once from Murraylands now established here around reservoirs etc. Med height.
Kennedia prostrata	Scarlet Runner		Ground cover either dense or sparse with brilliant large red pea-flowers. Likes tough conditions. Hills and Plains.
Kunzea pomifera	Muntries		Dense groundcover with white fluffy flowers and edible fruit. Butterfly plant. Prefers sandy soil. Hills and Plains.
			Ground dwelling plant with many small yellow daisy flowers. Butterflies 25cm. Hills and Plains.
Leptospermum continentale	Prickly Tea-tree		Medium dense shrub covered with white tea-tree flowers. Damper areas or some watering. Hills and Foothills.
Leptospermum lanigerum	Silky Tea-tree		Large shrub 2-3m which grows along creek lines or damp areas. Tea-tree flowers. Hills and Foothills.
Leptospermum myrsinoides	Heath Tea-tree		Small to medium shrub covered with attractive white tea-tree flowers. Great for insects and birds. Hills and Foothills.
Linum marginale	Native Flax		Dainty blue flowered plant. Great for cottage gardens5m-1m often drooping. Hills and Plains.
Lomandra densiflora	Soft Tussock Mat-rush		Bright-green tussock plant with spreading foliage. Often hidden flowers. Hills and Plains
Lomandra effusa	Scented Irongrass		Fine strappy plant with clusters of scented white flowers at the base.
Lomandra micrantha	Small-flower Mat-rush		Thin leafed tuft plant to 70cm. Grows as a small clump. Spring flowers. Plains and Hills.
Lomandra multiflora ssp. du	Hard Mat-rush		A blue-grey stiff tussock plant to .7m. Very hardy. Great for lizards. Hills and Plains.
Lotus australis	Austral Trefoil		Very beautiful hardy plant covered with white flowers in spring. Lives 2-3 years5m. Butterfly attracting.
Lycium australe	Australian Boxthorn		Many-branched small shrub. Spines along the stems. Orange red seed fruit. Mostly Plains.
Maireana brevifolia	Short-leaf Bluebush		A shrubby salt bush which can become scrappy with age if not pruned. 80cm. Very hardy.
Maireana sedifolia	Bluebush	northern, Murra	White foliage drought tolerant plant. About 1m tall. Alkaline soils. Plains. Native to SA but not local.
		northern, Murra	White foliage drought tolerant plant. About 1m tall. Alkaline soils. Plains. Native to SA but not local. White or pink flowered hollyhock to 1m. Large flowers. Will tolerate most soils. Hills and Plains
Maireana sedifolia		northern, Murra	

		I	
	Short-leaf Honey-myrtle		Large shrub excellent for creek lines. White flowers on the stems. 2-3m. Hills.
	Dryland Tea-tree		Attractive hardy large shrub with masses of white brush flowers in summer. Hills and Plains.
	Broombush		Upright multi stemmed large shrub to about 3m. Yellow brush flowers.
Melicytus dentatus (Hymena			Great for blue-wren habitat this medium dense spiky plant has unusual yellow flowers and dark berries. Hills
	River Mint	central hills	Creeping herb with strong spearmint smell when chrushed. Mauve flowers. Native bees. Hills and Plains.
Mentha diemenica	Slender Mint		Water loving mint with fresh mint flavour. Small pink flowers. Semishade. Can tolerate all water. Spreads by runners.
	Weeping Rice-grass		Grass suitable for lawn if regularly cut. Good bird and other animal food. Forms variable. Moister soil types.
	Yam Daisy		Indigenous plant food. Small plant with yellow daisy flowers. Dies back to tuber for summer. Hills and Plains
	Creeping Monkey-flower		Fine groundcover plant for damp places. Small mauve-purple flowers much of the year. Fairly salt tolerant. Plains
	Common Boobialla		Shrub 1-3m with fleshy leaves. White spotted flowers. Purple fruit. Coast and Plains
Myoporum petiolatum (visco			Large shrub with small white spotted flowers. Tolerates limestone well.
	Creeping Boobialla - red leaf	~	Hardy ground cover plant. Most soils. Small pale spotted flowers. Foothills and Plains
	Fox-tail Mulga-grass		A very attractive sparse grass with blue-grey heads held high above the flowers. Leaves low to ground.
	Coast Tobacco		Ground dwelling plant to 60cm with white flowers. Likes rocks or sand. Good for coastal areas.
	Mount Lofty Daisy-bush		Medium shrub with large white daisy flowers. Hills
·	Silver Daisy-bush		Medium relaxed shrub to 80cm with large white daisy flowers. Hills
·	Showy Daisy-bush	Burra Gorge	Medium shrub. Attractive daisy flowers. Very hardy in dry conditions. Tolerates limestone.
Olearia ramulosa	Twiggy Daisy-bush		Medium to large shrub. Masses of small white daisy flowers mostly in autumn. Hills and Plains.
	Rayless Daisy- bush		Medium shrub. Masses small white daisy flowers without petals mostly autumn. Hills
Opercularia turpis	Twiggy Stinkweed		Small straggly twiggy shrub smelling like strong cheese. Unusual flowers. Hills
Opercularia scabrida	Stalked Stinkweed		
	Notched Bush-everlasting		Med shrub to 1.2m with tight bunches of yellow daisy flowers. Suits Hills and Plains.
Patersonia occidentalis	Long Purple-flag		Beautiful blue/purple flowering iris plant. Likes water. To 40cm. Hills
-	Magenta storks bill	south-east	Small suckering plant, vibrant magenta flowers summer and autumn. Water in summer. Pots. Blue-banded bees. Most soils
Persoonia juniperina	Prickly Geebung		Small prickly shrub with beautiful yellow tube like flowers. Wetter Hills.
Pimelea stricta	Erect Riceflower		Very attractive medium shrub with bunched drooping white tube flowers in spring. Butterflies. Hills and Plains.
Pittosporum angustifolium	Native Apricot		Weeping erect shrub/small tree. Yellow flowers, orange capsules with red seeds. Mostly Plains and Foothills.
Platylobium obtusangulum	Holly Flat-pea		Low shrub with striking triangular foliage and reddish flowers. 70cm. Most Hills and Foothills soils.
Poa labillardiera	Common Tussock-grass		Attractive bluish spreading grass that suckers a little. Great for seed eating birds. 70cm.
Podolepis jaceoides	Copper-wire Daisy		Low plant to 60cm with large yellow fringed daisy flower. Flowers late spring. Plains and Foothills.
Prostanthera behriana	Downy Mintbush		Very attractive bush with largish mauve open tube flowers. About 2m. Hills and Foothills. Spring
Prostanthera chlorantha	Green Mintbush		Small shrub with pink to green tube flowers. Fine grey foliage. Hills.
Ptilotus erubescens	Hairy-tails		Small ground dwelling plant to 30cm. Pink and white fluffy flowers. Hills.
Ptilotus spathulatus	Pussy-tails		Small ground cover plant. Fluffy cream-yellow flowers. Hills and Plains.
Pultenaea acerosa	Bristly Bush-pea		Prickly yellow bush to 1m. Very attractive pea flowers in spring. Hills
Pultenaea daphnoides	Large-leaf Bush-pea		Upright shrub to 1.5m with yellow flowers in clusters at the tips. Wetter Hills areas.
Pultenaea hispidula	Rusty Bush-pea		Beautiful soft weeping pea to 1m. Orange pea flowers in spring. Hills
Pultenaea largiflorens	Twiggy Bush-pea		Excellent small garden shrub. Masses of orange flowers in spring. To .7m. Hills and Plains.
Pultenaea laxiflora	Loose-flower Bush-pea		Small pea bush to under 50cm with red and yellow pea flowers and fine foliage. Hills.
Pultenaea pedunculata	Matted Bush-pea		Groundcover forming dense mat. Great for covering banks. May sucker. Masses of yellow flowers. Foothills and Hills.
Ranunculus lappaceus	Australian Buttercup		Ground storey plant with bright yellow flowers spring to summer. Foothills and Hills. Likes damp places.
Rhagodia parabolica	Fragrant Saltbush		Spreading shrub to 1.5m with silver-grey foliage. Bunches of tiny red fruits. Great for the Plains but also suits Hills.
Rubus parvifolius	Native Raspberry		Sometimes suckering, prickly plant with pink flowers and occasional raspberries. Damp or creekline habitat.
	Wallaby-grass		Small to medium grass with fluffy light seed heads mostly in late spring.
Rytidosperma auriculatum	Lobed Wallaby-grass		Small to medium grass to 50cm with fluffy light seed heads mostly in late spring.
Rytidosperma caespitosum	White-top		Medium grass with fluffy light seed heads mostly in late spring.
	Short Wallaby-grass		Small grass to 40cm. Very fine leaf. Butterflies
	Brown-black Wallaby-grass		Medium grass with fluffy light seed heads mostly in late spring. Good on periodically wet sites.
	Wallaby-grass		Small to medium grass with fluffy light seed heads mostly in late spring. Butterflies
	Kneed Wallaby-grass		Small to medium grass with fluffy light seed heads mostly in late spring. Butterflies
Rytidosperma pilosum	Velvet Wallaby-grass		Small to medium grass with fluffy light seed heads mostly in late spring. Butterflies
	Wallaby-grass		Tall wallaby grass with fluffy white seed heads. Birds and butterflies.
	Bristly Wallaby-grass		Variable height grass with fluffy light seed heads mostly in late spring.
	Quandong		Small tree with grey-green foliage and shiny red edible fruit. Often 3-4m. Hills and Plains
	Fairy Fanflower	KI, south	Very attractive ground cover with mid-purple fan shaped flowers. Most soil types.
	Small-fruited Fanflower	,	Very attractive ground cover with pale-mauve or white fan shaped flowers. Most soil types.
	Sharp-leaf Club-rush		Water loving plant for edge of dams. Great habitat. To 60cm
	Swamp Groundsel		
			Daisy bush erect and sometimes straggly varying from 1-1.5m. Usually small flowers Good for revegetation.
Senecio anethifolius	Feathery Groundsel		Aromatic shrub to about 1 metre tall. Drylands north of Pt Pirie and Pt Augusta.
	Purple-leaf Groundsel		This tall daisy grows to over 1m and bears tiny flowers. Interesting purple foliage. Hills and Foothills.
	Cotton Groundsel		This silver grey daisy provides colour and texture. Flowers are very small. To about 1m. Hills and Plains.
	Desert Senna		Masses of bright yellow cup flowers on a shrub to 1.5m. Attracts yellow butterflies. Plains.
Setaria constricta	Karatha had Darate P		Iscapening grass to buck with parrow seed heads along the stem. Watercourses and rocky billsides
	Knotty-but Paspalidium		Branching grass to 60cm with narrow seed heads along the stem. Watercourses and rocky hillsides.
Setaria jubiflora	Warrego Summer-grass		Grass to 120cm with seed heads lying along the stem. Good for watercourses and damp areas
Setaria jubiflora Sida petrophila	Warrego Summer-grass Rock Sida		Grass to 120cm with seed heads lying along the stem. Good for watercourses and damp areas Medium shrub with grey foliage and yellow-orange cup-like flowers. Prune for a bushier effect. Plains and Foothills.
Setaria jubiflora Sida petrophila Solanum laciniatum	Warrego Summer-grass Rock Sida Kangaroo Apple		Grass to 120cm with seed heads lying along the stem. Good for watercourses and damp areas Medium shrub with grey foliage and yellow-orange cup-like flowers. Prune for a bushier effect. Plains and Foothills. Med to large shrub. Purple flowers. Yellowish fruit. Suits damper Hills
Setaria jubiflora Sida petrophila Solanum laciniatum Sonchus hydrophilus	Warrego Summer-grass Rock Sida Kangaroo Apple Native Sow-thistle		Grass to 120cm with seed heads lying along the stem. Good for watercourses and damp areas Medium shrub with grey foliage and yellow-orange cup-like flowers. Prune for a bushier effect. Plains and Foothills. Med to large shrub. Purple flowers. Yellowish fruit. Suits damper Hills This native thistle will self seed. Yellow flowers. 1m. Good in revegetation projects.
Setaria jubiflora Sida petrophila Solanum laciniatum Sonchus hydrophilus Spyridium parvifolium	Warrego Summer-grass Rock Sida Kangaroo Apple Native Sow-thistle Dusty Miller		Grass to 120cm with seed heads lying along the stem. Good for watercourses and damp areas Medium shrub with grey foliage and yellow-orange cup-like flowers. Prune for a bushier effect. Plains and Foothills. Med to large shrub. Purple flowers. Yellowish fruit. Suits damper Hills This native thistle will self seed. Yellow flowers. 1m. Good in revegetation projects. Compact shrub 1-1.5m with masses of tiny white flowers. Very attractive. Hills.
Setaria jubiflora Sida petrophila Solanum laciniatum Sonchus hydrophilus Spyridium parvifolium	Warrego Summer-grass Rock Sida Kangaroo Apple Native Sow-thistle		Grass to 120cm with seed heads lying along the stem. Good for watercourses and damp areas Medium shrub with grey foliage and yellow-orange cup-like flowers. Prune for a bushier effect. Plains and Foothills. Med to large shrub. Purple flowers. Yellowish fruit. Suits damper Hills This native thistle will self seed. Yellow flowers. 1m. Good in revegetation projects.
Setaria jubiflora Sida petrophila Solanum laciniatum Sonchus hydrophilus Spyridium parvifolium Stackhousia aspericocca	Warrego Summer-grass Rock Sida Kangaroo Apple Native Sow-thistle Dusty Miller		Grass to 120cm with seed heads lying along the stem. Good for watercourses and damp areas Medium shrub with grey foliage and yellow-orange cup-like flowers. Prune for a bushier effect. Plains and Foothills. Med to large shrub. Purple flowers. Yellowish fruit. Suits damper Hills This native thistle will self seed. Yellow flowers. 1m. Good in revegetation projects. Compact shrub 1-1.5m with masses of tiny white flowers. Very attractive. Hills.
Setaria jubiflora Sida petrophila Solanum laciniatum Sonchus hydrophilus Spyridium parvifolium Stackhousia aspericocca	Warrego Summer-grass Rock Sida Kangaroo Apple Native Sow-thistle Dusty Miller One-sided Candles Creamy Candles		Grass to 120cm with seed heads lying along the stem. Good for watercourses and damp areas Medium shrub with grey foliage and yellow-orange cup-like flowers. Prune for a bushier effect. Plains and Foothills. Med to large shrub. Purple flowers. Yellowish fruit. Suits damper Hills This native thistle will self seed. Yellow flowers. 1m. Good in revegetation projects. Compact shrub 1-1.5m with masses of tiny white flowers. Very attractive. Hills. Ground storey plant with white to cream flowers up an open spike. May die back over summer. Hills and Plains
Setaria jubiflora Sida petrophila Solanum laciniatum Sonchus hydrophilus Spyridium parvifolium Stackhousia aspericocca Stackhousia monogyna	Warrego Summer-grass Rock Sida Kangaroo Apple Native Sow-thistle Dusty Miller One-sided Candles Creamy Candles	Yorke Peninsula	Grass to 120cm with seed heads lying along the stem. Good for watercourses and damp areas Medium shrub with grey foliage and yellow-orange cup-like flowers. Prune for a bushier effect. Plains and Foothills. Med to large shrub. Purple flowers. Yellowish fruit. Suits damper Hills This native thistle will self seed. Yellow flowers. 1m. Good in revegetation projects. Compact shrub 1-1.5m with masses of tiny white flowers. Very attractive. Hills. Ground storey plant with white to cream flowers up an open spike. May die back over summer. Hills and Plains Ground storey plant with a single slighly fleshy stem of cream flowers. About 30cm. Hills and Plains

Themeda triandra	Kangaroo Grass		Very showy grass to 1m tall. Rusty seed heads. Good habitat plant.
Thomasia petalocalyx	Paper-flower		Small compact shrub to 80cm. Many pink papery flowers over a long period. Hills and sandy Plains
Thysanotus patersonii	Twining Fringe-lily		Delicate twining plant with beautiful fringed purple flowers. Dies back for summer. Most soils.
Velleia paradoxa	Spur Velleia		Small groundstorey plant with yellow 5 petaled flowers.
Viola eminens	Ivy-leaf Violet		Ground cover with runners for shady areas. Will need water. Purplish flowers attractive and edible.
Viminaria juncea	Native Broom		Shrub to about 3m with sprays of golden pea flowers. Showy. Prefers wet areas or will need summer water.
Vittadinia blackii	Narrow-leaf New Holland Da	isy	Small round soft compact shrub with small pink flowers and larger daisy heads, 30cm. Hills and plains.
Vittadinia cervicularis	Waisted Vittadinia		Attractive soft small shrub with showy daisy seed heads. 30cm. Plains and Hills. Likes sandier soils.
Vittadinia cuneata	Fuzzy New Holland Daisy		Small daisy plant with tiny mauve flowers. Seed heads will blow off and grow nearby.
Vittadinia gracilis	Woolly New Holland Daisy		Small grey leaved daisy plant with tiny mauve flowers. Seed heads will blow off and grow nearby.
Vittadinia megacephala	Giant New Holland Daisy		Ground dwelling plant. Small pink daisy flowers. Grows on limestone or other. Plains and Hills and coast.
Wahlenbergia fluminalis	River Bluebell		Fine sprawling plant to 40cm high. Masses of tiny blue flowers in summer. Hills and Plains
Wahlenbergia stricta	Tall Bluebell		Ground dwelling plant. Blue flowers. Summer. Spread by seed. 40cm. Hills and Plains.
Wahlenbergia sp	Native Bluebell		
Westringia rigida	Stiff Westringia	local plains	Low but broad shrub. White spotted flowers. Very hardy. Loves sand, tolerates limestone. Plains
Wurmbea dioica	Early Nancy		Small plant with white flowers in early spring. 20cm. Dies back over summer. Most soil types.
Xanthorrhoea quadrangulat	Rock Grass-tree		Great plant for rockeries/outcrops. Huge white flower spike attracts birds and butterflies. Slow growing to start.
Xanthorrhoea semiplana	Yacca		Large grass-like plant to 1.5m (+ flower spike) with broad leafy skirt. Birds, butterflies. No trunk. Hills & Foothills
Xerochrysum bracteatum	Golden Everlasting		Large daisy plant to 1m. Very large bright yellow paper flowers attract many butterflies. Prune back. Most soils.
